

**Local Carpet and Rug Cleaning Company Approved by  
International Wool Care Organization**

December 2015\_\_

AAmerican Cleaning Bob's Inc., a carpet and rug care company of Spokane Valley, WA has been approved to become a member of the WoolSafe®-Approved Service Provider network. The WoolSafe® Organization is a worldwide organization dedicated to the care and cleaning of wool carpets, rugs and upholstery. After completing specialized training provided by the WoolSafe® organization, and meeting their very strict criteria, AAmerican Cleaning Bob's has been invited into this elite group of industry professional companies who have trained personnel on their staff to care for your beautiful wool textiles.

“Many carpet cleaning companies use harsh cleaning and spotting chemicals designed for synthetic carpet which will damage wool” says Kathie Sculley-Scott, owner of AAmerican Cleaning Bob's. “WoolSafe®-Approved Service Providers agree to use only WoolSafe®-Approved cleaning products on wool carpets and rugs, and follow the highest industry standards.” WoolSafe® was originally established in 1991 by the International Wool Secretariat (the Wool Bureau in North America) to independently test cleaning products to ensure they are safe to use on wool carpet and rug fibers. The WoolSafe® Organization of Otley, England launched an accreditation program for professional carpet cleaners in October of 1998 in response to demand from the cleaning and carpet manufacturing industries and to raise the level of expertise in cleaning wool floor coverings.

“Our customers have trusted us to care of their fine carpet and rugs for years” says Kathie Sculley-Scott. “It is an honor for us to finally join this fine organization of wool carpet and rug care experts from around the world”

Before being accepted into the network, WoolSafe® Service Providers sign a code of professional ethics and provide proof of company liability insurance. By hiring a WoolSafe®-Approved Service Provider such as AAmerican Cleaning Bob's clients are assured of receiving the very best cleaning service that the industry has to offer.
